21. (New). A three-step cosmetic dermabrasion treatment system or method comprising; (i) A non-acidic dermal resurfacing composition, and having a softening point of less than 80C, and (ii) A dermal polishing composition, and (iii) A dermal regenerating composition, and wherein (i), (ii), and (iii) are sequentially applied to skin.

22. (New). A cosmetic Dermabrasion treatment method according to claim 21, wherein said treatment is for skin antiaging, including wrinkles.

23. (New). A cosmetic Dermabrasion treatment method according to claim 21, wherein said treatment is for acne.

24. (New). A cosmetic Dermabrasion treatment method according to claim 21, wherein said treatment is for correcting minor skin imperfections.

25. (New). A dermabrasion treatment method according to claim 21, wherein dermal resurfacing composition is a non-acidic adhesive composition, comprising; (i) At least one skin binding composition, and (ii) At least one skin coating composition, and (iii) At least one liquid binder composition that binds with the ingredients of the compositions in (i) and (ii).

26. (New). A dermabrasion treatment method according to claim 21, wherein dermal polishing composition comprising; (i)

At least one solid material for skin polishing, and (ii) At least one skin softening composition, and (iii) A carrier base.

27. (New). A dermabrasion treatment method according to claim 21, wherein dermal regenerating composition comprising; (i) At least one collagen boosting composition, and (ii) At least one anti-inflammatory composition, and (iii) At least one blood microcirculation enhancing composition, and (iv) At least one emollient composition, and (v) A carrier base.

28. (New). A dermabrasion treatment method according to claim 21, wherein components (i), and/or (ii), and/or (iii) additionally contains at least one topical anesthetic selected from benzocaine, dibucaine, dyclonine, lidocaine, pramoxine, tetracaine, ephedrine, epinephrine, phenylephrine, and their various salt derivatives.

29. (New). A dermabrasion treatment method according to claim 25, wherein said method requires temperatures less than 80C.

30. (New). A dermabrasion treatment method according to claim 25, wherein skin binding composition is an aromatic hydrocarbon resin having a softening point of less than 80C.

31. (New). A composition according to claim 26, wherein a carrier base is selected from a lotion, cream, gel, spray, thin

liquid, mask, serum, solid cosmetic stick, balm, salve, collodion, impregnated patch, traditional water and oil emulsion, suspension, colloid, microemulsion, clear solution, suspension of nanoparticles, emulsion of nanoparticles, powder, or anhydrous composition.

32. (New). A composition according to claim 27, wherein a carrier base is selected from a lotion, cream, gel, spray, roll-on, glide-on, thin liquid, mask, serum, solid cosmetic stick, balm, salve, collodion, impregnated patch, impregnated strip, traditional water and oil emulsion, suspension, colloid, microemulsion, clear solution, suspension of nanoparticles, emulsion of nanoparticles, powder, or anhydrous composition.
